USER GUIDE

SELECTING BRANDS and ADDING FAVORITES

The selection of Brands is now done through a drawer menu on the left side, accessible by clicking on the icon \equiv . The Brands window opens and allows the selection of Brands.

The selected brands are then displayed for memory in the main window :

Brands commonly sold by a Repairer or a Plate must be registered as Favorites for make it faster to find tires. In the drawer menu, click on "Add to Favorites" and check the STARS of the favorite brands.

DUNLOP

By default, RUNFLAT and SEALANT tires do not appear in search results. It is possible to display them by clicking on the button A note detailing the specifics of RUNFLAT and SEALANT tires is available as a link in the catalogue.

The results are displayed in order of availability on the DISTRIGO hub:

- The stock available on the DISTRIGO hub is displayed in the "HUB STOCK" column

- The stock available at the manufacturer or in the central store is displayed as a traffic light in the "CENTRAL STOCK" column

The list can be reordered in order of Price by clicking on the sort arrow.

Any research carried out on OPTIMUM or BUDGET tires is shown when there is a proposal for EUROREPAR tires in a dedicated insert. The EUROREPAR tires offered have load and speed index greater than or equal to those sought to ensure full compatibility.

USER GUIDE

STOCK AVAILABLE ON HUB and ORDER

The available stock is displayed in the "HUB STOCK" column. If the stock at the hub is sufficient to meet the need, the tires will be taken automatically from the hub.

4	MARQUE	RÉFÉRENCE	ø	DÉSIGNATION			STOCK PLAQUE	STOCK CENTRAL	PRIX HT	PRIX TTC 🗢	REMISE CLIENT %	PRIX D'ACHAT	
	GOODYEAR	GOO542449	×	EFFICIENTGRIP PERFORMANCE 2 205/55 R16 91V	*	🗈 🗛 🔰 69 🖶	<u>20+</u>	•>>	05.50 67.85	114.60 81.42		(1)	嶌

In the above case, ordering via the picto 💥 at the end of the line places the tire in the Catalog basket:

You must then transfer the contents of the Catalog basket to the Service Box basket by clicking:

USER GUIDE - PRICE

ASSEMBLY / BALANCING PACKAGE

The cost of the Assembly / Balancing operation must be registered by the Repairer in the following window: These costs are recorded in the tool, including for subsequent consultations, and allow the establishment of quotes.

Montage / Equilibrage 1 pneu 15 TTC Image: Colspan="3">Image: Colspan="3">Image: Colspan="3" 2 pneus 30 TTC Image: Colspan="3">Image: Colspan="3" 4 pneus 50 TTC Image: Colspan="3">Image: Colspan="3"

PRICE DISPLAY

By default, the Price displayed is that of the manufacturer's grid (Price List). It doesn't correspond to the customer selling price, nor to the purchase price at the Hub.

But it is on this price that the field "CUSTOMER DISCOUNT %" applies to calculate the selling price to the customer.

If a discount is registered in the settings sheet

 $\overset{{\scriptstyle \mathrm{s}}}{=}$, the new price will be displayed and the price of the Price List will be

crossed out. The new price then corresponds to the recommended customer price to guarantee the repairer the margin he has entered:

PRIX HT	PRIX 🖨 TTC	REMISE CLIENT %	PRIX D'ACHAT
94.50 56.70	113.40 68.04	40	(1)

USER GUIDE – Discount Settings

DISCOUNT SETTINGS Buy AND Sell [1/2]

Is done via the button "Settings of discounts":

Paramétrage des remises

The grid allows Repairers / Agents to set the selling price of tires by specifying the type and amount of the margin to be taken into account. This setting is to be made for each manufacturer and is detailed by season, by type of vehicle and by tire size.

Paramétrage des remises											
BRIDGESTONE CONTINENTAL DUNLOP GOODYEAR HANKOOK MICHELIN PIRELLI YOKOHAMA BFGOODRICH FIRESTONE FULDA GT RADIAL KLEBER UNIROYAL BARUM DAYTON FORMULA KORMORAN SAVA SEIBERLING											
Pneu été	CONDITION ACHAT EN %		R16-	R17	R18+						
TOURISME	40	MARGE EN EURO	4	0	0						
CAMIONNETTE	10	MARGE EN %	10	0	0						
4X4	10	REMISE CLIENT EN %	23	0	0						

Once the settings are complete, the manufacturer concerned will appear circled in green.

3 types of margins can be used:

- MARGIN IN EURO: the customer selling price includes a margin whose amount in euros is fixed
- PERCENTAGE MARGIN: the customer selling price includes a margin, the amount of which is a percentage of the purchase price of the tyre.
- CUSTOMER DISCOUNT IN PERCENTAGE: the customer selling price is calculated from the Price List minus the discount entered. This discount must be less than the purchase discount to ensure a positive margin at the garage.

Before leaving the configuration grid, remember to save the changes by clicking on "validate" at the bottom of the page, on the right. After registration, the grid defaults to Bridgestone (1st manufacturer in alphabetical order).

USER GUIDE – Discount Settings

DISCOUNT SETTINGS Buy AND Sell[2/2]

Once the discount grid has been completed, the catalog prices will be crossed out to display the customer selling price.

	_			_

Afficher remise client Afficher code FAN

In the discount settings grid, it is possible to set a specific selling price over a determined period, the time of a promotion for example.

The specific condition can be configured to the reference or according to several combinations (brand, size, season) possible.
